Tiger Testing Delivers on Fortune 500 Food & Beverage Contract

On June 25, 2020, Tiger Testing secured an MSA to perform PCR & Serology COVID-19 testing for a large Fortune 500 company. With billions of dollars in annual sales and thousands of employees all over the world, our client is a world leader in the food services market.

For three consecutive days our team of Health Care Professionals (HCP) tested 1,000+ employees at a U.S. facility in an effort to keep operations uninterrupted during the height of the COVID pandemic. Our team of dedicated medical professionals was able to produce results within 48 hours of the lab receiving the test samples, and our administrative team coordinated notification of the findings to each employee with a personalized letter informing them of their results.

The client expressed their satisfaction with Tiger's quick turnaround and timely test results. Consequently, they booked additional testing events for future dates at multiple locations throughout the United States.

About Tiger Testing

Tiger Testing is a world-class turnkey service provider offering COVID-19 testing solutions for large corporations. At Tiger Testing, we are able to offer your organization onsite workforce testing customized to match your unique needs. Our response teams can provide an array of best-in-class COVID-19 testing technologies, administered by clinical professionals, and processed in registered CLIA labs.
