

COVID-19 WASTEWATER TESTING & MANAGEMENT SYSTEM SERVICES

1 COMMUNAL RESTROOMS

Employees use the restroom throughout the day at your office/facility.

2 FACILITY WASTEWATER

On a regular basis, Tiger will monitor sewage in conjunction with normal COVID-19 testing to detect SARS-CoV-2 in human waste.

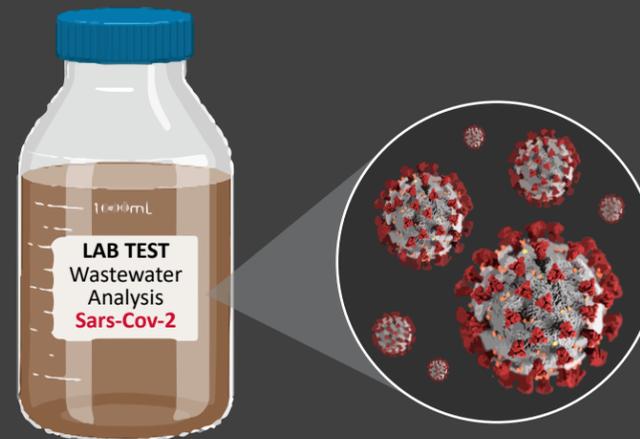

4 SHIP TO TIGER TESTING LAB

After the sample is collected, it will be overnighted or express shipped, depending on test location, to the Tiger Testing Lab in Beaumont for evaluation.

5 PCR ANALYSIS OF SAMPLE

Results will be provided to client within a 24-48 hr time frame to initiate the next step in mitigating the COVID virus from your workplace..

3 WASTEWATER SAMPLE COLLECTED
